### Use of Park and Ride Services

The chart shows the total number of Park and Ride journeys (using both smart and paper tickets) made by month of the year. In July 2023, the number of Park and Ride journeys was 72% of the equivalent number in July 2019 (although its worth noting Stourton Park and Ride wasn't operational in 2019).

#### **MetroLine Calls**

The chart shows the average number of weekday (Monday to Friday) calls to MetroLine by month. In July 2023, weekday call centre volumes were 8% higher than the equivalent pre-pandemic month in 2019.

#### **Metro Travel Centres**

The chart shows the average number of daily (Monday to Saturday excluding bank holidays) sales and enquiries made at travel centres by month of the year. This

information has been collected since April 2021. Customer counting equipment was used before this, but the data is not comparable. July 2023 sales volumes were similar to last July, however the number of enquiries at travel centres was considerably higher.
