Current Assurance Process Activity:

Scheme Description:

The project will engage with small and medium sized enterprises (SMEs) across the Leeds City Region (LCR) with ambition and aspirations to grow through providing an integrated package of support. The package will comprise of tailored advice along with financial support (capital grants) to help them grow and create new employment opportunities.

The support will be targeted at SMEs operating within the LEPs priority sectors of; manufacturing, low carbon and environmental, financial & business services, digital & creative and health & life sciences.

The programme will run until January 2020 funded through a combination of local and EU funding, matched by the enterprises engaged in the project and will deliver the following:

- Provide one-to-one and one-to-many support to a minimum of 302 businesses
- Provide financial support to a minimum of 44 businesses (as part of the total of 302)
- Create a minimum of 604 jobs within the Leeds City Region
- Seek to lever at least £3.96m of private sector funding
- Support the growth of business in LCRs priority sectors
- Realise additionality in complementary projects

Business Case Summary:	
Strategic Case	<p>The project addresses Priority 1 of the SEP: Growing Business. It provides a capital grant and tailored support aimed at assisting SMEs from targeted sectors to grow and create new jobs.</p>
Commercial Case	<p>Closure of the National Business Growth Service (BGS) in March 2016 due to funding cuts, has led to gaps in advisory provision for growth in the LCR. Assistance with strategic business planning is a common issue for many businesses that contact support services, particularly the need for some expert coaching and mentoring to develop and implement a plan capable of unlocking their growth potential. This project and the availability of supporting funding through the ESIF programme provides the opportunity to address this gap in provision and address the needs of SMEs with growth potential.</p> <p>The project will help SMEs in LCR to:</p> <ul style="list-style-type: none"> • Understand and undertake strategic planning to support growth of their business • Prepare for securing external finance

	<ul style="list-style-type: none"> • Accelerate growth leading to an increased economic contribution to the LCR (increased GVA and Growth) <p>The companies will be targeted through referrals from a range of partners and agencies.</p> <p>A delivery partner has been procured through competitive tender to recruit SMEs to the project and deliver the specialist support and guidance. The capital grants element will be administered through the existing project team within WYCA through referrals from the delivery partner.</p> <p>Research has shown that a small proportion of SMEs create over half of all new jobs in the country and this project will provide the support necessary to enable SMEs in the region to grow, creating jobs and wealth. Complementary and previous comparable programmes have identified a gap in the market and need for this targeted support for SMEs, for example WYCA's Growth Service supported over 1,200 businesses in its first nine months of operation.</p> <p>It is anticipated that approximately 44 SMEs will be awarded a capital grant through the project with an average value of £22.5k through a competitive process. This will represent 10-30% of the value of works/investment with the residual amounts being funded through match funding from the businesses themselves. This will provide investment in new equipment as well as alterations and fit out of premises.</p>
<p>Economic Case</p>	<p>The project is designed to deliver the following outputs that will lead to economic growth within the region:</p> <ul style="list-style-type: none"> • Provide one-to-one and one-to-many support to a minimum of 302 businesses by 2020 • Provide financial support to a minimum of 44 businesses by 2020 (as part of the global figure of 302) where demonstrative evidence can be provided that financial intervention along with intensive business support will accelerate growth. • Create a minimum of 604 jobs within the Leeds City Region • Seek to lever at least £3.96m of private sector funding • Support the growth of business in LCRs priority sectors (manufacturing, low carbon and environment, financial & business services, digital & creative and health & life sciences) • Through the financial strand of the programme, realise additionality in complementary projects - either supporting investment that would not otherwise happen, bring forward investment so that it is realised sooner or ensuring that investment happens on a greater scale.
<p>Financial Case</p>	<p>Funding has been identified to deliver the project through a successful bid to EU European Structural and Investment Funds, along with an allocation from WYCA's access to Capital Grants. In addition the project anticipates match funding from Businesses supported through advice and grants.</p>

	ESIF	£2,156,138	
WYCA Capital Grants	£990,000		
Private Sector Match	£3,911,596		
Total	£7,057,734		
Management Case	<p>The project will be plugging a gap in the market for support and advice to SMEs in the region. The Project costs and target outputs are based on previous similar initiatives and the delivery partner has been procured within expected costs.</p> <p>The project will be managed by a team at WYCA. This team and management structures are already in place within the Economic Services Directorate. The SRO has been appointed and a project steering group has been established. All necessary project management documentation is in place or is currently being developed.</p> <p>The project will link into and complement established business support services including the LCR Growth Service. Project governance and assurance processes are in place through links to the existing Business Growth Programme Appraisal Advisory Group.</p>
