

## 2019 / 2020 Spatial Priority Area - Definitions and Criteria – DRAFT FOR DISCUSSION

SPAs are identified as the largest and or most strategic opportunities within our city region, requiring coordinated infrastructure investment and are broad areas rather than individual sites.

There is no suggestion of hierarchy between the different categories of SPA. The value of having SPAs agreed and endorsed is that it provides consensus on our largest and / or most strategic opportunities in our sub region in order to achieved balanced growth across the area.

Our strategic pipelines (including employment, housing and transport) complement the SPAs providing a more comprehensive list of priority sites or schemes, which are key to driving inclusive growth. Many of the employment and housing pipeline sites fall within SPAs. The SPAs are, in some instances, aligned with enabling transport schemes through transport pipelines.

The SPAs have been developed and are to be actively managed to ensure that:

- we are doing all we can to bring forward the 60,000 extant housing permissions across West Yorkshire in the context of high demand for homes;
- we are doing all we can to support jobs growth by better understanding local supply and demand for strategic employment land;
- we are raising the profile of those areas in our city region with critical infrastructure and economic resilience challenges;
- we are prioritising development in locations served by sustainable transport networks.

CATEGORY OF SPA	AIMS	CRITERIA	Proposed SPAs
Core City	- Support inclusive growth and renewal in main Urban Centres through the delivery of key infrastructure, commercial and residential development opportunities.	- Largest settlements in Local Plan place hierarchies. These have been identified in local plans due to their size and role within the context of the district and sub region, their suitability to accommodate new development, and their accessibility to jobs and services. - Member of the UK Core Cities group. - Contributes the highest proportion of housing units to the West Yorkshire total.	<ul style="list-style-type: none"> <li>• Leeds City Centre</li> </ul>
