
Report to: Calderdale District Consultation Sub Committee

Date: 15 March 2021

Subject: **Workshop Session – Connectivity Infrastructure Plan**

Director(s): Dave Pearson Director Transport Services

Author(s): Tom Gifford, Policy Manager, Head of Mass Transit

1. Information

- 1.1 The [Connectivity Infrastructure Plan](#) sets out a long-term transport infrastructure investment programme for the next 20 years, providing a picture of where improvements are most needed to enhance people's quality of life and bring investment to the area.
- 1.2 It is built on detailed evidence on the role different types of transport can play:
- [Mass Transit 2040 Vision](#) - a bold and ambitious plan for a new form of transport for West Yorkshire.
 - [West Yorkshire Strategic Bus Network Review](#) – a review of the region's core bus network and proposals for increasing the number of people travelling by bus
 - [West Yorkshire Rail Vision](#)– Setting out how better rail services can support our ambitions for the region
 - [Local Cycling and Walking Infrastructure Plans](#) – Proposals to improve infrastructure and remove barriers to people walking and cycling for more journeys
 - [Future Mobility Strategy](#) – a review of how transport technology and innovation can improve lives and reduce carbon emissions
- 1.3 Engagement on the West Yorkshire Connectivity Infrastructure Plan is now underway: www.yourvoice.westyorks-ca.gov.uk/connectivity
- 1.4 A presentation on the Connectivity Infrastructure Plan will be given at the meeting and member's views will be sought on how we develop these proposals further.

2. **Recommendations**

2.1 That the Sub-Committee's feedback be noted.

3. **Background Documents**

None

4. **Appendices**

None
