
Report to: Bradford District Consultation Sub Committee

Date: 15 March 2021

Subject: **Workshop Session – Connectivity Infrastructure Plan**

Director(s): Dave Pearson Director Transport Services

Author(s): Tom Gifford, Policy Manager, Head of Mass Transit

1. Information

- 1.1 The [Connectivity Infrastructure Plan](#) sets out a long-term transport infrastructure investment programme for the next 20 years, providing a picture of where improvements are most needed to enhance people’s quality of life and bring investment to the area.
- 1.2 It is built on detailed evidence on the role different types of transport can play:
- [Mass Transit 2040 Vision](#) - a bold and ambitious plan for a new form of transport for West Yorkshire.
 - [West Yorkshire Strategic Bus Network Review](#) – a review of the region’s core bus network and proposals for increasing the number of people travelling by bus
 - [West Yorkshire Rail Vision](#)– Setting out how better rail services can support our ambitions for the region
 - [Local Cycling and Walking Infrastructure Plans](#) – Proposals to improve infrastructure and remove barriers to people walking and cycling for more journeys
 - [Future Mobility Strategy](#) – a review of how transport technology and innovation can improve lives and reduce carbon emissions
- 1.3 Engagement on the West Yorkshire Connectivity Infrastructure Plan is now underway: www.yourvoice.westyorks-ca.gov.uk/connectivity
- 1.4 A presentation on the Connectivity Infrastructure Plan will be given at the meeting and member’s views will be sought on how we develop these proposals further.

2. Recommendations

2.1 That the Sub-Committee's feedback be noted.
