## West Yorkshire Combined Authority

### Corporate Governance Code and Framework

#### Introduction

The definition of corporate governance is that it is about 'how bodies ensure they do the right things, in the right way, for the right people, in a timely, inclusive, open, honest and accountable manner. It comprises the systems and processes, and culture and values, by which bodies are directed and controlled and through which they account to, engage with and, where appropriate, lead their communities.'

West Yorkshire Combined Authority, which includes the Mayor of West Yorkshire's Policing and Crime function, has approved and adopted a code of corporate governance which captures the Mayor's duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way its functions are exercised, having regard to a combination of economy, efficiency and effectiveness, and is consistent with the principles of the best practice guidance issued jointly by the Chartered Institute of Public Finance and Accountancy (CIPFA) and the Society of Local Authority Chief Executives (SOLACE). CIPFA/SOLACE updated this guidance in 2016 with their new framework to assist organisations in ensuring that resources are directed in accordance with agreed policy and according to priorities, that there is sound and inclusive decision making and that there is clear accountability for the use of those resources in order to achieve desired outcomes for service users and communities. The previous six core principles are replaced by the following seven principles:

- A. Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of the law;
- B. Ensuring openness and comprehensive stakeholder engagement;
- C. Defining outcomes in terms of sustainable economic, social, and environmental benefits;
- D. Determining the interventions necessary to optimise the achievement of the intended outcomes;
- E. Developing the entity's capacity, including the capability of its leadership and the individuals within it;
- F. Managing risks and performance through robust internal control and strong public financial management;
- G. Implementing good practices in transparency, reporting, and audit to deliver effective accountability.

The Combined Authority is committed to meeting these principles and this statement sets out how the supporting principles beneath each statement will be achieved, monitored and reviewed. It is the responsibility of the Governance and Audit Committee

to keep corporate governance matters under review. As part of this process it undertakes regular reviews throughout the year with a formal review at the year end of the processes and systems in place during the year. This includes the results of the work carried out by the internal audit section. The Committee reviews and approves the Annual Governance Statement which forms part of the statutory annual accounts which are subject to external audit. A Joint Independent Audit and Ethics Committee has oversight of the governance arrangements for the Mayor's PCC functions and West Yorkshire Police.

<p><b>A. Behaving with integrity, demonstrating strong commitment to ethical values and respecting the rule of the law.</b></p> <p>Local government organisations are accountable not only for how much they spend, but also for how they use the resources under their stewardship. This includes accountability for outputs, both positive and negative, and for the outcomes they have achieved. In addition, they have an overarching responsibility to serve the public interest in adhering to the requirements of legislation and government policies. It is essential that they can demonstrate the appropriateness of all their actions across all activities and have mechanisms in place to encourage and enforce adherence to ethical values and to respect the rule of law</p>	<p>We will: Behave with integrity</p>	<ul style="list-style-type: none"> <li>• <u>A Code of Conduct for Members and the Mayor to ensure that high standards of conduct are maintained. Principle	Sub principles	Our actions and behaviours to achieve this:
<p><b>B. Ensuring openness and comprehensive stakeholder engagement.</b></p> <p>Local government is run for the public good, organisations therefore should ensure openness in their activities. Clear, trusted channels of communication and consultation should be used to engage effectively with all groups of stakeholders, such as individual citizens and service users, as well as institutional stakeholders. NB: institutional stakeholders are the other organisations that local government needs to work with to improve services and outcomes (such as commercial partners and suppliers as well as other public or third sector organisations) or organisations to which they are accountable.</p>	<p>We will: Be open</p>	<ul style="list-style-type: none"> <li>• Adoption of a Publication Scheme that describes the kinds of information available and provides guidance about how to access personal information and submit a Freedom of Information request. The Chair of the Leeds City Region Enterprise Partnership (LEP) sits on the Combined Authority to assist in ensuring close working with local businesses.</li><li>• The Mayor and Deputy Mayor for Policing and Crime fosters close links with the Partnership Executive Group (PEG), which is an important partnership which is well established to support the development and delivery of the Mayor's Police and Crime Plan.</li></ul>

Principle	Sub principles	Our actions and behaviours to achieve this:
	<p>We will: Engage with individual citizens and service users effectively</p>	<ul style="list-style-type: none"> <li>• The Combined Authority seeks views from individuals, organisations and businesses on a number of areas including strategies, policies and detailed projects, including the development of the Mayor's Policing and Crime Plan, using a variety of means including face to face and online. Information on and links to current consultations are published on the website using the Your Voice portal.</li> <li>• The consultation team is part of the communications team to ensure its activity is linked with ongoing communications and ensure each consultation exercise can best meet its planned objectives. Consultation across the Combined Authority is increasingly managed using a calendar of planned activities.</li> <li>• The Combined Authority has arrangements to engage with all sections of the community including seldom-heard groups and businesses. <a href="#">District Consultation Sub-Committees and the youth forum</a> consider transport matters and there is extensive engagement with</li> </ul>

Item 11 - Appendix 1

Principle	Sub principles	Our actions and behaviours to achieve this:
<p><b>C. Defining outcomes in terms of sustainable economic, social, and environmental benefits.</b></p> <p>The long-term nature and impact of many of local government’s responsibilities mean that it should define and plan outcomes and that these should be sustainable. Decisions should further the organisation’s purpose, contribute to intended benefits and outcomes, and remain within the limits of authority and resources. Input from all groups of stakeholders, including citizens, service users, and institutional stakeholders, is vital to the success of this process and in balancing competing demands when determining priorities for the finite resources available.</p>	<p>We will: Define outcomes</p>	<ul style="list-style-type: none"> <li>The organisation’s business plans have been developed in parallel with the Combined Authority’s budget for 2023/24. The budget was signed off at the Combined Authority meeting on 2 February 2023, where the draft Corporate Plan on a Page and Directorate Business Plans on a Page were also considered. Each plan on a page also has a more detailed document underpinning it which clearly sets out each directorate’s priorities and outputs for the year ahead. Programmes and projects are assessed against the assurance framework with outcomes set and confirmed when they are approved to progress. Following initial endorsement at the Combined Authority meeting, the business plans have been refined further to ensure that equity, diversity and inclusion (EDI) implications are fully embedded within the plans to achieve the best outcomes for the people, communities and businesses of West Yorkshire. This is in line with the Combined Authority’s EDI vision, statement and framework to meet the</li> </ul>

Item 11 - Appendix 1

Principle	Sub principles	Our actions and behaviours to achieve this:
<p><b>D. Determining the interventions necessary to optimise the achievement of the intended outcomes.</b></p> <p>Local government achieves its intended outcomes by providing a mixture of legal, regulatory, and practical interventions (courses of action). Determining the right mix of these courses of action is a critically important strategic choice that local government has to make to ensure intended outcomes are achieved. They need robust decision-making mechanisms to ensure that their defined outcomes can be achieved in a way that provides the best trade-off between the various types of resource inputs while still enabling effective and efficient operations. Decisions made need to be reviewed frequently to ensure that achievement of outcomes is optimised.</p>	<p>We will: Determine interventions</p>	<ul style="list-style-type: none"> <li>• The strategic priorities of the West Yorkshire Plan shape the decision making of the Combined Authority and ensure interventions are prioritised to deliver the aims and objectives of the organisation.</li> <li>• The statutory Local Transport Plan – the Transport Strategy - sets out specific transport interventions and the planned outcomes. The assurance framework is applied to these projects and ensure that they are effectively assessed (in terms of analysis of options, resource implications and strategic outcomes) and evaluated before approval is sought to proceed and that outcomes are achieved.</li> </ul>
	<p>We will: Optimise achievement of intended outcomes</p>	<ul style="list-style-type: none"> <li>• The annual budget is prepared for scrutiny and approval by Members and published in line with agreed</li> </ul>

Item 11 - Appendix 1

Principle	Sub principles	Our actions and behaviours to achieve this:
<p><b>E. Developing the entity’s capacity, including the capability of its leadership and the individuals within it.</b></p> <p>Local government needs appropriate structures and leadership, as well as people with the right skills, appropriate qualifications and mind-set, to operate efficiently and effectively and achieve intended outcomes within the specified periods. A local government organisation must ensure that it has both the capacity to fulfil its own mandate and to make certain that there are policies in place to guarantee that its management has the operational capacity for the organisation as a whole. Because both individuals and the environment in which an organisation operates will change over time, there will be a continuous need to develop its capacity as well as the skills and experience of individual staff members. Leadership in local government is strengthened by the participation of people with many different types of backgrounds, reflecting the structure and diversity of communities.</p>	<p>We will: Develop the entity’s capacity</p>	<ul style="list-style-type: none"> <li>• The Combined Authority has progressed a change programme designed to give greater transparency of senior accountability across key areas and a greater read across from job roles to key performance outcomes for West Yorkshire. Principle	Sub principles	Our actions and behaviours to achieve this:
<p><b>F. Managing risks and performance through robust internal control and strong public financial management.</b></p> <p>Local government needs to ensure that the organisations and governance structures that it oversees have implemented, and can sustain, an effective performance management system that facilitates effective and efficient delivery of planned services. Risk management and internal control are important and integral parts of a performance management system and are crucial to the achievement of outcomes. Risk should be considered and addressed as part of all decision</p>	<p>We will: Manage risk</p>	<ul style="list-style-type: none"> <li>• A risk strategy sets out risk management arrangements that are embedded across all service areas and help inform decision making. A strong system of financial management is essential for the implementation of policies and the achievement of intended outcomes, as it will enforce financial discipline, strategic allocation of resources, efficient service delivery and accountability. It is also essential that a culture and structure for scrutiny are in place as a key part of accountable decision making, policy making and review. A positive working culture that accepts, promotes and encourages constructive challenge is critical to successful scrutiny and successful service delivery. Importantly, this culture does not happen automatically, it requires repeated public commitment from those in authority.</p>		<p>Resources and Corporate Committee.</p> <ul style="list-style-type: none"><li>• Risk registers are developed for all projects, with the assurance framework ensuring these are properly maintained.
